(3) The International Black Cross Organization [also known as 'Crux Noir', 'Croix Noire', 'Cruz Negra', 'the A[...] International', or simply 'the Organization'] is a decentralized [ruler-less] autonomous [self-teaching/learning/executing/operating/governing] organization; therefore 'the DAO' and 'the Organization' are synonymous. It shall be the global umbrella organization of all organizations and command systems, both promulgated by N. S., and in general, especially those represented by people dressed in a majority of black garments, such as conventional anarchists; those who paint their hands red to speak truth to power; people advocating for the rights of working and colored people; and people who oppose the globalist/industrialist/imperialist/financial regime variously referred to as 'the global economy', 'White Supremacy', 'Rome', 'London City', 'America and her interests', and 'The Empire'. The Organization shall not be registered with the Secretary of any state in the known world. A member of the Organization may be known as a 'friend', 'knight', or 'ambassador'.
