Comm. No. A240520-02

MEMORANDUM

TO ALL TO WHOM THESE PRESENTS COME, SEND GREETINGS AND PEACE:—

Mobilizing and Demobilizing the Office of Traveling Ministry

(1) The [Office of Traveling Ministry](#) 'OTM' of the Public Friend Antarah (also known as his 'immediate office') shall issue **bills** identifying certain products and services, in receipt of which goods the public shall appropriate funds upon presentment thereof. Otherwise stated, the public may order certain products and services from OTM by presenting these bills to Antarah. These bills shall bear a note upon their face, and these notes may be referred to as '**vouchers for instruction**' in 'LP'. The occupation will generate revenue by and through the circulation of notes and the payment of bills.

(2) In addition to [DAIS](#), [DISIS](#) and [PEACE Force](#), a CORPS 'core' function of the DOP OTM shall be vested in the hereby established **Department of Mobilization and Demobilization 'DMOB'**, which shall mobilize 'mob' and demobilize 'demob' (a) notes into and out of circulation, (b) field operations of worship and instruction and (c) encampments. All such operations as conducted in the field are done on leave from the Saint Nat's Temple Headquarters Complex 'THC' at [Nacotchtank, Ouachita District](#), which acts as the 'reservation'. Notes mobilized from reserve to camp are in turn mobilized into the public venue for acceptance and circulation, and are demobilized when such note is remitted, or 'billed', to the service provider with due appropriations, whereupon the obligation is performed and the note is redeemed.

(3) "Into whatsoever house ye enter, first say, Peace be to this house" (Luke 10:5). "The laborer is worthy of his hire" (Luke 10:7). "Say unto them, The kingdom of God is come nigh unto you" (Luke 10:9). Thus it is said, the traveling minister shall bring peace wherever he goeth, shall duly discharge his office in receipt of appropriate fees, and shall proclaim the coming of the Lord.

(4) Few understand the foundation upon which N.'.S.'. is built, which is the same as that on which is built the Temple, the Temple Bar, the Temple House, the Lodge, and the Fed, namely, the secret knowledge of 'scribes' and their sacred 'scriptures'. While the Grantor issues notes of perceived value, the draft of the note/payment of the bill/redemption of the bond does not materially damage the Grantor and yet accordingly satisfies the obligation. The camp shall not hold more than 10% of the notes held in the reserve. N.'.S.'. will profit if it can drive the broad and general circulation of its notes. In this way notes are like advertisements for services like dollars are advertisements for the government's (people's) good faith and credit. We know that the value lies not in the faith and credit itself but in the human tendering the instrument to discharge their debt, which instrument is only acquired by and through expending labor/time which is the actual unit of value. Similarly, a certain transaction with the 'system clearinghouse' is necessary for a note holder to redeem the value of the note (in our case, in intelligence).
